

## **Swahid Smriti Mahavidyalaya, Belsor.**

### **About the Alumni Association of the college**

College life is the most adorable part of an educated person. Feeling this the ex students / alumni of Swahid Smriti Mahavidyalaya, Belsor too come forward with a view to constituting an Alumni Association under the initiation taken by some of the socially established figures from among the ex students so that by arranging get together life be revitalized through memorizing the bygone years of their student life.. It is to be mentioned that many students , from among the alumni, have already been able to establish themselves as well known figures in various fields like education, culture, social activities, politics etc. Already many departments have arranged get together programme on departmental basis and as a whole they are initiating to form an alumni association collectively and accordingly they come forward and have managed some sittings for this purpose.

All gathered students express their feeling that they feel themselves to be fortunate enough to be part of this college, a reputed college of rural Assam, especially of economically deprived section of the rural West Nalbari region. The SWAHID SMRITI MAHAVIDYALAYA ALUMNI ASSOCIATION is going to be formed formally and the initiation has already been taken for its registration. In various sittings they express their aims and objectives of their association as :

To collect and raise funds for the college to strengthen the economic conditions of the college.

To make a close co-ordination with the college authority.

To focus on programmes that aims towards the developments of the college.

To promote such activities that encourage the development of potentials and talents of the students. Etc.

*It is a pleasure that some departments have already formed their departmental alumni associations and have conducted programmes of get together along with raising funds, publishing souvenir, tree plantation in and around the college, donating assets to college etc.*
